**Unfinished Business**
1. *Long Range Planning – updates*

   b. Updates for the YMCA Partnership/Capital Campaign were provided by Foundation Director Lelonek during the Foundation update. This topic will stay on the agenda as unfinished business for future discussions.

2. *Library Locations’ Hours – updates*
a. The Board received a draft of the hours for the different reopening phases. Trustee Phillips asked if the staggered hours were enough to maintain social distancing requirements. Director Campbell explained that with the two buildings and the mobile library, they were. The only confined area is the Circulation workroom, but everyone is at least 6 feet apart, and have appropriate face coverings provided by the library. Additionally, staff are being scheduled to specific assignments in specific areas of the buildings to maximize the social distancing. Trustee Freiburg asked how our mask supply was holding up. Director Campbell said that as of now, we have enough cloth masks for everyone to have 2-3. Disposable masks are also available for vendors in the building and staff who may need to wash their cloth masks.

4. Energy Performance Project
   a. Director Campbell gave a brief update of the City’s energy performance contract project with Johnson Controls. The latest news is that the Finance Department is still working on funding the project with bonds. Director Campbell contacted the Finance Department and City Manager regarding the recently announced shovel-ready state grants currently available for capital projects, in the hopes that the library’s HVAC replacement portion of the project could be funded by this grant money. The Finance Director responded that they are looking into those grants and will keep that in mind.
