

"Sentenced"

By Stephen Curry (Producer & Narrator) & Ayesha Curry

Powerful & Eye-Opening

Come join us to watch this documentary. It shows how kids' inability to read is an epidemic in America. It follows four Americans and reveals how their illiteracy traps them in poverty. "Sentenced" also helps us develop a better understanding of what some of our fellow Americans are facing in our public school system, communities, and country. We hope to see you soon!
